What Are The Akashic Records?

Overview

References to the Akashic Records or the Book of Life date back to antiquity. It is referred to in almost any spiritual practice. It's also interesting to see [Quantum Science and Technology](#) coming together to validate the same information on the universe from various angles. The quantum field on individual and collective consciousness.

The Akashic Records go by the concept that the universe as a whole is Akasha. Every event (including thought and activity) that happens in the universe is recorded in its DNA which includes us, as humans. To be able to get to the true source of a situation, can you imagine finding this information anywhere else; other than the source where anything and everything about it is recorded? This is why people also refer to the Akashic Records as the Library.

What are the Akashic Records?

The Akashic Records are the individual records of a soul or entity from the time it leaves its Source until it returns.

At the time we make the decision to experience life as an independent entity, there is a field of energy created to record every thought, word, emotion and action generated by that experience. That field of energy is the Akashic Records. Akashic, because it is composed of Akasha (the energetic substance from which all life is formed), and Records, because its objective is to record all life experience.

By opening the Akashic Records with a sacred code or prayer, we align ourselves to the vibration of the one receiving the consultation (ourselves or someone else). The code works with energetic

vibration to “key in” to the specific name of the life form, and carries with it Source’s protection through Masters, Teachers, and Loved Ones (the records keepers and our higher selves).

The information in the Akashic Records helps us bring our past and future to the present; in our now. By accessing these records, we can identify and release anything that we have created; that has become a block to our present realization of our oneness with our greatest potential.

We can look at why we have addictive patterns, why we choose the relationships we do, why we have created our habitual responses, and how to create action in our lives instead of re-action.

In addition to individuals, all entities including businesses, buildings, animals, groups of people (the collective) etc. have their Akashic Records too which can be accessed for information required in order to make positive changes or overcome challenges.

The healing energy of the Akashic Records allows us the freedom to choose grace in all things and thereby overriding any illusion we have created that causes us to believe we are separate from our true selves or Source.

It is one of the most powerful tools available on the planet today to help us remember our oneness with Source.
